The time it takes to add a new item to inventory.

Got a brand new type of widget to rent? With Enfinity's ingenious data tree structure, just fill in four quick fields and – *kazzam!* – the system handles the rest in the blink of an eye. Just 19 short seconds, and the rest is history:

- Auto-applies an item number *plus the correct attributes for:*
- Product groupings
- Descriptives: size, color, etc.
- Minimum rate structure
- Daily rate structure
- Weekly rate structure
- Monthly rate structure
- Tax structure
- Related environmental fees
- Damage waiver preference
- Applicable grace periods
- Safety and warning messages
- Operator instructions
- Special discounts by customer type
- Recommended rental/resale add-ons
- Related delivery and setup charges
- Depreciation schedule
- Posting accounts for depreciation, purchase, sales and cost of sales, rental income, and repair costs

Enfinity data maintenance.

The most productive 19 seconds on the face of the planet.
